HEALTH CARE

STANFORD MEDICINE

AGING ADULT SERVICES

Memory Support Program

Providing care planning, education,
care coordination, and resources
for Stanford patients and families.

650-723-1303

www.stanfordhealthcare.org/agingadultservices

Offerings

- Consultations
- Family Meetings
- Assessments and reports to physicians
- Information on coping and understanding complex behavior
- Home visits to assess functioning and home safety
- Care coordination
- Linkages to community resources including caregiver agencies, adult day programs, senior living, caregiver support, geriatric care management, respite, financial and legal resources

Through a partnership with Aging Adult Services at Stanford Health Care, you and your loved one can develop an integrated care plan to increase functioning and well-being.
